=====

To get a better picture of the conditions a POW faced it first must be decided who were "POWs. Total number tell a false story as most were released within a few days of capture. The North's Prisoner of War Survivor's Association took 30 days in captivity as their benchmark. Using that number this is what happened.

Source – Congressional Hearings 1867/68. – Richard F. Hemmerlein 1936.

Confederates held for 30 days or more	227,570	Deaths in prison	26,774	11.8%	(Northern records were good allowing the use of the 30 day rule.)
Union prisoners held for 30 days or more	94,000	Deaths in prison	36,401	38.7%	(Southern records were mostly destroyed. eg Salisbury NC)
